	NHS Chorley and South Ribble and Greater Preston CCGs
	NHS Morecambe Bay CCG
	NHS Blackpool and Fylde and Wyre CCGs

Policy Redevelopment Recommencement Sensory Integration Therapy Policy.

█ presented the report and advised that the recommencement of the development of policies relating to Sensory Integration Therapy and █ had been identified as essential to progress with both policies requiring formal consultation.

Regarding the policy for Sensory Integration Therapy, █ said, recognizing the subject matter, clinical engagement would be carried out with the support of the Children's Commissioners Network and local authority Special Educational Needs Teams. Public consultation would be on-line.

Discussion

Sensory Integration therapy: █ enquired if the policy should cover all ages and █ advised that although diagnosis was in the paediatric cohort, not only was this cohort moving into adult services, more diagnoses were carried out in adulthood. █ stated that the policy was "all age" and it was agreed that the wording should be strengthened to make this clearer.

Decision: Agreed to proceed to consultation.

Action – █ to check and amend wording of the draft to cover adults.
