Clinical Directors Name (Please print) _____ Sig _____

OVERVIEW

This competency covers prescribing of systemic anticancer treatments within the site specialisation(s) detailed above. It will be completed by ST5+ Speciality Trainees with their educational supervisors after reviewing DOSTs to demonstrate competence to prescribe systemic anticancer treatment within the site specialisms stated.
 Speciality Trainees ST5+ with SACT competence level 4 can prescribe 1st cycle SACT within alliance guidelines.

SACT competence

Level	Descriptors
1	Entrusted to observe only No provision of direct clinical care
2	Entrusted to act with direct supervision The supervising doctor is physically within the hospital or other site of patient care and is immediately available to provide direct supervision.
3	Entrusted to act with indirect/minimal supervision The supervising doctor is not physically present within the hospital or other site of patient care, but is immediately available by means of telephone and/or electronic media, to provide advice and can attend physically if required to provide direct supervision.
4	Entrusted to act unsupervised The trainee is working independently and at a level equivalent to a consultant
