

Standard Operating procedure

Medical Systemic anti-cancer drug prescribing

Author	Consultation group	Approved by
Name: Jo Wilkinson -Lead chemotherapy Nurse LTH on behalf of LSCCA Chemotherapy Clinical Reference Group	Name: Consultants, pharmacists, nurses at LTH, ELHT, BVH, UMBHT	Name: Lancashire and South Cumbria cancer Alliance chemotherapy group
		Date Approved: June 2023 Review date: June 2025

1. Scope

The scope of this document is to clarify the process for competency assessing ST5+ Speciality Trainees with their educational supervisors and recording for Governance purposes at each Individual trust within the Lancashire and Cumbria cancer alliance (LSCCA).

2. Introduction

All ST5+ Speciality Trainees will be competency assessed by their educational supervisors after reviewing DOSTs to demonstrate competence to prescribe systemic anticancer treatment (SACT) within the site specialisms stated.

3. Statement of Intent

This document provides a robust process to document and maintain Governance records for ST5+ Speciality Trainees when competency assessed to prescribe SACT.

4. Process

Speciality Trainees ST5+ with SACT competence level 4 can prescribe 1st cycle SACT within alliance guidelines.

- 4.1 Competency assessment document –
