

Respond to all questions
for **each of the**
following Places within your
ICB

Lancashire & South Cumbria

Does **this Place** commission a
standalone pathway for CYP
with tics or tourettes (Yes/No)

**Follow NICE Guidance and
Royal College guidelines for
management of CYP – there is
not a standalone pathway in
place across the ICB – the
management is within core
services offers via Community
Paediatrics and Child and
Adolescent Mental Health
Services (CAMHS)**

If **Yes**, Please provide
a copy of the
pathway and
Standard Operating
Process

N/A

For each Place please record the individual response to the answers below

<p>If Yes, please provide details of each contributing provider including: the name of the provider and their contact details</p>	<p>If Yes, please provide the name and contact details of the lead commissioner</p>	<p>If No, please provide a description of how children and young people with tics and Tourette Syndrome in this Place are currently provided with support. Please include what this service provides, a named contact and their contact details.</p>	<p>Do you have plans to improve access to treatment and support for CYP with tics in this Place? If so, can you provide details of what improvements are being implemented</p>
<p>N/A</p>	<p>N/A</p>	<p>The diagnosis of TIC disorder or Tourette’s can be made by a paediatrician or a child psychiatrist. Sometimes a medical opinion is asked for to exclude other diagnoses like epilepsy, but CAMHS should be able to diagnose.</p>	<p>There are no specific plans in-year (2023/24) but there are established clinical networks and a dedicated CYP directorate within the Lancashire and South Cumbria ICB that will manage any service developments or transformation programmes.</p>
		<p>As for management, this is often better within CAMH, as there is often overlap with anxiety disorders, including obsessive compulsive disorder. Also the impact is often psychological, and that support is available through</p>	

Would you or your colleagues **in this Place** be interested in accessing clinical support/education about tics involving specialist clinicians

Would you or your colleagues **in this Place** be interested in receiving information on a best practice model

The CYP directorate will utilise the clinical networks across the ICB to develop services – any latest clinical guidance and/or training materials, best practice and evidence based pathways would be reviewed via these networks and where possible implemented into service delivery

Yes
