Executive summary

At the last meeting of the PIEAC, members agreed to hold regular presentations from each of the places in Lancashire and South Cumbria to focus on engagement and related activities. This presentation, is the first of these, and describes some of the many engagement and communication activities that have taken place in Place at Blackpool.

The presentation seeks to advise and provide assurance to the committee and the ICB Board for the delivery against the strategy for working in partnership with people and communities across the ICB and embedding the principles of public involvement and engagement.

The presentation provides powerful examples of engagement and insight working in partnership with Healthwatch Blackpool and by colleagues in the ICB at Place.
